▶ Conversation / Audio script

Hi, everyone! I'm Dr. Shahram Alavi. I'm 57 years old. I go to hospital about 7 in the morning and I come back home at about 9 pm. I want to tell you that some things such as fast food and too much salt and sugar are not good for your health. But fish, yoghurt and milk are examples of great healthy food. When you get the flu, you should rest at home first. And try to have some soup, too.
